Facts about RE'0x Sponsorship

The RE Conference series	The IEEE International Requirements Engineering conference provides the premier international forum for researchers, educators, and industrial practitioners to present and discuss the most recent innovations, trends, experiences, and concerns in the field of requirements engineering.
Topics considered	Include, but are not restricted to: requirements elicitation, analysis, documentation, validation and verification; requirements specification languages, methods, processes, and tools; requirements management, traceability, viewpoints, prioritization, and negotiation; modeling of requirements (formal and informal), goals, and domains; prototyping, simulation, and animation; interaction between requirements and design; evolution of requirements over time, product families, and variability; relating requirements to business goals, products, architecture, and testing; social, cultural, global, personal and cognitive factors in requirements engineering; collaborative requirements engineering; domain-specific problems, experiences and solutions.
Prior RE sponsors	Alcatel, Boston Scientific (Guidant Corp), Cigital, CIT, Daimler Chrysler, Digital River, DRA, HCL, HP, IBM, Infosid, InfoSys, Microsoft, MITEL, Monterey Aquarium, NASA, Philips, Satyam, Siemens, Sqli, Tata, UGS
Contributions	Range from \$1,000 to \$20,000; a common contribution is \$6,000
Participants	About 250 attendees, 40% are IEEE members and 20% are students. About 25 countries are represented (USA, Canada, Germany, UK, Netherlands, Sweden, Japan, Switzerland, Spain, Austria, France, Belgium, China, Finland, Portugal, Italy, Australia, Brazil, Turkey, South Africa, Denmark, Ecuador, Ireland, Israel)
Tax deduction	The RE series is a non-profit organization. Sponsors may receive a tax deduction (U.S. only).
Visibility	Through sponsorship, sponsors will be associated with the excellent reputation of the RE conference series. Sponsor present their name, logos, & products to distinguished decision-makers from academia and industry. Vendors may present their products & services in vendor sessions, booths, and serve as panelists.
Industry promotion	Technology-based companies will be contributing to the positive public perception of their industry.
